Career Objective

Looking for an aspiring role to put my academic and practical knowledge to good use. And gaining insightful knowledge on the new technologies

Academic Summary

- Proficient in machine learning workflows, including model training, and deployment using libraries like Scikit-learn, TensorFlow, Keras and Pandas.
- Skilled in Python, back-end scripting, and process automation using Selenium, n8n, and PyAutoGUI; experienced in API integrations, cloud platforms, and deploying machine learning models.
- Hands-on experience in cloud deployment along with SQL and MongoDB.

Education

Pursuing B.Tech in CSE from Gyan Ganga Institute of Technology and Sciences	Batch 2022 – 2026
with CGPA of 7.67	
HSC from Little World School, Jabalpur - 84%	Batch 2021 – 2022
SSC from Little World School, Jabalpur - 86%	Batch 2019 – 2020

Major Project

Geolocation Based Attendance Tracking App | *FastAPI, Typescript, MongoDB*

- A replacement to traditional Biometric attendance system.
- It uses geofencing technique to draw the office parameter to check whether the employee is inside or outside the office.
- It uses random interval FaceVerification to verify that the user is authentic or not

Minor Project

CCTV Surveillance System | *Python-OpenCV, MongoDB*

- This project helps Police station to find missing person easily using cctv footage.
- It has a dashboard for civilians as well and police officers too to manage the FIR's and update the status.
- A notification service will also be implemented if a missing person is found and the details will be sent to the authority

Projects

Pathfinder Game with Q-Learning | *Python, Pygame, Reinforcement Learning*

- Designed a grid-based game where multiple agents learn to reach a goal while avoiding obstacles using Q-learning.
- Implemented dynamic reward-based training with a Q-table and supported multiple increasing difficulty levels.

Scriveners Website | *Python-FastAPI, React, MongoDB, Oracle Cloud*

- Developed and deployed a full-stack web app with FastAPI backend and React+Tailwind frontend.
- Managed production deployment with Nginx and used Git hooks to push changes to production.

Technology Stack

- **Programming & Scripting:** Python, Bash, SQL
- **Cloud & Deployment:** AWS (EC2, S3, Lambda)
- **Version Control:** Git, GitHub Actions
- **Operating Systems & Environment:** Linux (Manjaro, Ubuntu), Shell Scripting, WSL
- **Automation & Tools:** n8n, Selenium, PyAutoGUI

Achievements

- Winner of **Gyan Ganga Summer of Code 2024**.
- CP Ratings: **CodeChef: 1499, CodeForces: 935, LeetCode: 1607**
- Selected for **IDE Bootcamp Phase 3, 2024** – by AICTE & MoE at Dehradun.

Certifications

CISCO Netacad - Python Essentials 1, Python Essentials 2
CISCO Netacad - Introduction to Data Science
AWS Academy Graduate - AWS Academy Cloud Foundations

Extra Curricular

Scriveners - Literary Club <i>Founding Member</i>	2023 – 2024 <i>GGITS</i>
Thespians - Drama Club <i>Director</i>	2023 – 2024 <i>GGITS</i>
Electoral Literacy Club <i>Campus Ambassador</i>	2024 – Present <i>GGITS</i>

Soft Skills

- Clear communication in English & Hindi
- Strong ownership and consistency
- Efficient time management
